

## Collection Plan for 2016

**W**ith October now upon us complete with its seasonal temperatures, traditions, and the various chores that fall brings, the Public Works Department has been working hard to prepare for one of its largest annual tasks, the Citywide collection and recycling of leaves.

### **Rules & Regulations**

Following New Jersey Department of Environmental Protection guidelines, the City promulgates the rules and regulations that govern and dictate how leaves are collected and processed to be compliant with our storm water management permit. The rules and regulations explain how and when leaves are to be set out for collection. In order to minimize local flash flooding and keep foreign matter from entering our waterways, Public Works staff

collects leaves in one of two ways; 1. Bagged—Leaves may be bagged and placed curbside for collection following the yard debris schedule, or, 2. Bulk Collection—Leaves are placed street side near the curb at the edge of your property until your street is scheduled for collection at which time they are to be placed into the street (no more than five calendar (5) days prior to the scheduled collection weeks). We ask all residents to familiarize themselves and/or their contractors with the rules and regulations governing the leaf collection program as violation of the rules is punishable by penalties under City Ordinance which may include fines.

### **Delivery to DPW Yard**

Residents or their registered contractors may deliver leaves to the DPW yard located at 175

South Van Brunt Street, M-F between the hours of 9AM and 2 PM.

### **Bagged Collection**

Public Works continues to encourage residents to bag their leaves and place them curbside for collection following the yard debris schedule (Ward 1 M, Ward 2 T, Ward 3 TH, Ward 4 F). Bags placed curbside will be collected between October 10th and January 1st.

### **Bulk Collection by Zone**

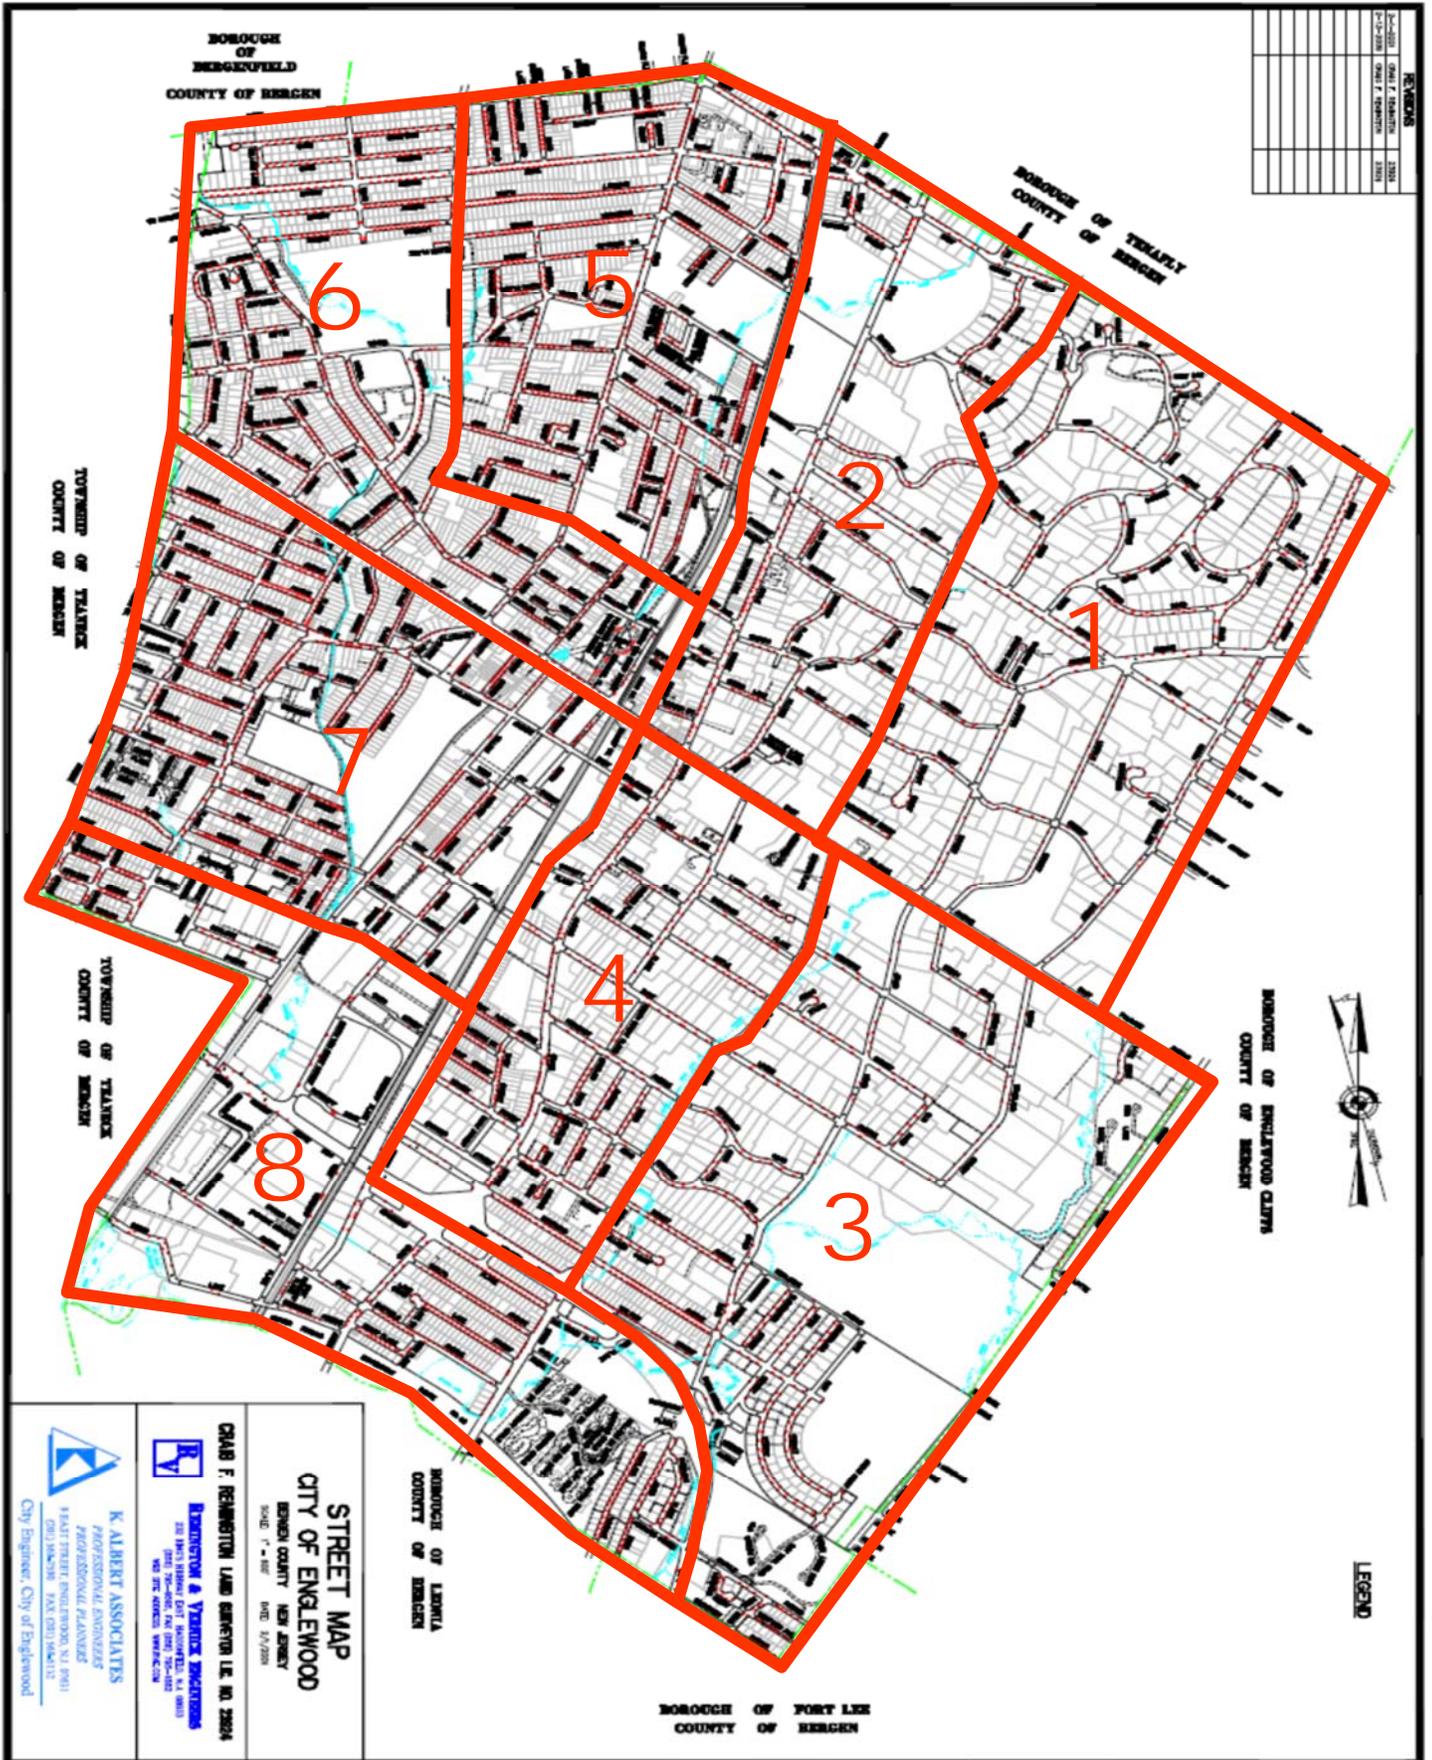

In an effort to be more efficient and effective in collecting bulk leaves, the city has been divided into eight (8) service zones. The inside of this newsletter contains a map showing the zones along with a listing of streets by zone and collection weeks. Each zone will be collected twice beginning in zones 1-4 where past data shows the leaves fall earlier and the overall vol-

ume is greater. The zones will again, be assigned collection weeks vs. specific dates for collection by street, so as to allow for flexibility in the schedule to either advance collection activities or recover from inclement weather, etc. It is important to note that NO LEAVES may be placed in the street or curbside AFTER your second scheduled collection, any remaining leaves MUST be bagged and placed curbside for collection, failure to comply can result in a violation being issued to the homeowner.

### **Questions, Comments, Concerns?**

Please do not hesitate to contact the Department of Public Works at (201) 568-3401.

Forest), **Lake Ct., Lake St., Marshall Rd., Nordoff Dr., Overpeck Ave., Overlook Pl., Parker Dr., Ridgeland Terr., Rockwood Pl., Sheffield Ave., Smith St., S. Dean St.** (Van Nostrand to Sheffield), **S. Van Brunt St.** (W. Forest to Nordoff), **Thompson Ave., Tietjen Ave., Webster Ave., W. Forest Ave., W. Nordoff Pl., W., Sheffield Ave.**

# 2016 LEAF DISPOSAL GUIDE

- Leaf collection by zone will begin on October 12th and end on December 18th
- Zone collection schedule for bulk leaves
- Collection of bagged leaves will follow yard debris schedule
- DPW may collect bulk leaves due to a late leaf drop between 12/19 & 12/30/16

## Rules and Guidelines:

- Bagged leaves must be placed in biodegradable paper bags, not in plastic bags. DPW trucks will follow the yard debris schedule to collect bagged leaves.
- Loose leaves are only to be put in the street within two days prior to the collection weeks indicated on the schedule.
- Do not pile loose leaves near cars—do not park cars on or near piles of leaves.
- Only loose leaves are permitted to be put in the street—no branches, grass clippings or other waste.
- Loose leaves should be piled in the street 12 inches from the curb to allow rainfall to flow down the curb to the storm drains.
- Piles of loose leaves must not be placed in the street if they in any way create a safety hazard or impede traffic.
- Do not rake leaves into drainage ditches or over storm drains—leaves must not be piled within 10 feet of a storm drain.
- DPW will clear only the streets of leaf debris and will not remove leaves from sidewalks or private property.
- Residents are responsible for ensuring that their landscapers follow the rules and guidelines.
- Violations of these rules may result in a summons to appear in Court and a fine.
