Weather Information Bulletin

National Weather Service Issues Winter Storm Watch from 12 AM on Monday until 6 AM on Tuesday. Snow will move into the area overnight Sunday into Monday morning. It will continue to snow throughout the day on Monday and taper off late Monday night. Total snow accumulation is expected to be 6 – 10 inches. Snowfall rates of 1 – 2 inches per hour are possible and visibility will be reduced during the peak snowfall hours. There is a potential for mixing, which could keep the snowfall totals on the lower end.

The Monday morning and evening commute will be slippery and hazardous.

Temperatures will hover around 30 degrees during the day on Monday and will be in the upper 20's both Sunday and Monday overnight.

Winds will be 15 - 20 MPH with gusts up to 35 MPH. Gusty winds will cause blowing and drifting snow. The combination of snow and wind may cause downed trees and power lines.

To Report Power Outages, Please Call: PSE&G [1-800-436-7734](tel:1-800-436-7734)
